## JRMA Awarded City of Prescott Transfer Station Master Plan Project

**Houston, TX (June 24, 2025)** – J. R. Miller & Associates, Inc. (JRMA), a leading architecture, engineering, and planning firm, is proud to announce that it has been awarded the contract for the design of the City of Prescott's transfer station master plan in partnership with Kimley Horn and Associates. This project marks a significant step forward in JRMA's mission to provide innovative and sustainable solutions for solid waste infrastructure.

With a strong track record in designing state-of-the-art transfer stations, JRMA will bring its expertise to Prescott to develop a modern, efficient, and environmentally responsible facility and overall solid waste campus. The new transfer station will enhance waste management operations, improve operational efficiency, and provide commercial and public waste, recycling, and green waste services while supporting the City's commitment to sustainability.

The new transfer station will incorporate advanced design features to optimize functionality and safety and continue to provide Prescott and the surrounding communities with advanced waste and recycling management services. JRMA's experience in solid waste facility design ensures that the project will be delivered with a focus on innovation, cost-effectiveness, and future flexibility for the City's Public Works Department. With this award, JRMA continues expanding its portfolio of impactful projects that help municipalities and communities achieve waste management goals.

### About JRMA:
